

DIDSBURY PIONEER

Vol. XXII

THURSDAY, SEPTEMBER 24th

Didsbury Business Men Show Confidence in Town by Erecting Fine Business Block.

The really substantial and prosperous appearance of the town of Didsbury, as viewed from the railway, has been enhanced considerably by the large and imposing brick block erected on Railway Street, opposite the C.P.R. depot, by W. G. Leisemer and J. V. Berscht. The site is the same upon which their former business block stood, and which it will be remembered was totally destroyed by fire on May 4th. Immediately following the fire, steps were taken to clear up the debris, and while the necessary arrangements preliminary to rebuilding were being made, the hardware business of W. G. Leisemer was temporarily located in a building a short distance south of his former business stand, whilst J. V. Berscht conducted his in the Leusler Block. This arrangement has existed up and until this week when Mr. Leisemer moves into his new store. Mr. Berscht's premises, however, will yet require a short time for completion.

The new block is a two-storey solid brick building, the portion occupied by Mr. Leisemer being thirty-two feet in width with a length of store space of eighty feet. There is also an addition at the rear measuring 20x47ft.

The main building, of course, will accommodate the stock of hardware and other goods, and will include in addition offices for W. G. Leisemer and his brother George. The large floor space will provide ample room for display, whilst the height of the ceiling allows for plenty of shelf room and for drawers and cabinets to be arranged systematically and in accordance with the most approved business principles.

The oil-house back of the store will be one of the best equipped along the line, this having a bat-

tery of nine self-measuring pumps. Here Mr. Leisemer has sought and obtained expert advice with a view to taking any and every precaution possible against fire, and with this in mind has established a method of ventilation which it is believed will successfully overcome, or at least reduce to a minimum, the danger of combustion by taking care of any seepage from the pumps and carrying off any vapour that may escape.

Adjoining the oil house is the tin shop, which has been brought up to date and equipped with the necessary machinery and tools to cope with any work entrusted to it. Running up the centre is a narrow gauge track connecting with the elevator to facilitate the handling of goods.

The store to be occupied by Mr. Berscht is also a very commodious one. Well lighted with large plate glass windows, and with a front store space of 35x45 feet, ample space is provided for display, and when occupied will, one would imagine, present a fine appearance. The rear portion of the store will measure 20x35. Mr. Berscht expects to occupy it within the next two or three weeks, and meanwhile is engaged in personally supervising and inspecting goods which when they arrive will make a very pleasing display.

Situated a block away, on Osler Street, there has also risen just recently a large addition to their former shop occupied by the Stevens brothers. This business was originally established about eight years ago, and so uniformly successful has it been that the brothers have now been compelled to provide further accommodation. The new portion, which is built of tile with a stucco front, measures 51x52 feet, and will be of great convenience to patrons of Stevens' Service Shop. There are three brothers, by the way, Frank, Bob and Fred, and that their popularity and public approval of their work is deserved is best shown in this new addition, which after all is a pretty good indication of the success of any business.

The erection of these new buildings may also be taken, one takes it, as evidence of the progress now being made by Didsbury and as a further indication of the confidence which our men of business have in its future.

Burnside

Mrs. Adams of Denbigh Ontario is visiting her brother Mr. John Greer.

The meeting of the Lone Pine Women's Institute at Mrs. Clarence Cipperly's was well attended in spite of bad roads and rainy weather. The next meeting will be held at Mrs. Albert Spraggs on October 8th.

The wet weather has caused considerable loss and trouble to the farmers as a good deal of the grain is starting to grow in the stock.

Mr. McNeill of McGill university who has been preaching in Stuart's school, Sunnyslope and Burnside this Summer, conducted Harvest Home services in the Burnside school on Sunday last.

The school was crowded and the splendid sermon with special music and singing was much enjoyed by all. Mr. McNeill leaves on Tuesday to continue his Theological course at McGill university.

We are glad to report that the cement work on the basement of the New Community Hall will be finished this week. In spite of bad weather and lots of other work the farmers are getting the hall up slowly but surely, and are all looking forward to a big opening day in the near future.

A U.F.A. and U.F.W.A. nominating convention for the Federal Constituency of Red Deer will be held on Tuesday September 29th at Red Deer. This convention is called for the purpose of nominating a candidate, election of officers, and other business which may come before the meeting. Representation will be on the basis of two delegates for every ten paid up members or major portion thereof.

H.E. Osmond, former proprietor of the Pioneer spent a few hours here on Tuesday. During his absence from Didsbury, his health has not been altogether good, and his medical adviser has strongly counselled him, to rest a while. Mr. Osmond's two daughters are both going through a business course. On his return to Spokane he will be accompanied by his son Fred, who intends taking a linotype course at San Francisco.

A. C. Fisher will attend the convention of Alberta insurance agents to be held at Calgary on Saturday.

SPECIAL THIS WEEK AT THE DRUG STORE

1 Bottle Palm Olive Shampoo 50c
2 Cake Palm Olive Soap - 20c-70c
All for 50c.

1 Tube Palm Olive Shaving Cream 35c
1 Can Palm Olive after shave Talcum 25c-60c

BOTH for 35c.

THREE CAKES PALM OLIVE SOAP 25c.

Also a full line of School Text Books, Scribblers, and Exercise Books at reasonable prices.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

SYNOPSIS

Hidden beneath a huge rock, Barre, the untamed wolf-dog, was terrified to see Pierrot, the half-breed trapper, shoot and kill Wakayoo, the black bear. This was slaughter, but for the two human creatures it was the business of life. Nepeese went after Barre and tried to entice him from his hiding place. For the first time the dog had a name. It was the Indian princess who called him Barre.

CHAPTER VIII.—Continued.

In that moment Nepeese felt the pressure of the rock on her shoulder, and into the eyes that had been glowing softly at Barre there shot a sudden wild look of horror. And then there came from her lips a cry that was not like any other sound Barre had ever heard in the wilderness—wild, piercing, filled with agonized fear. Pierrot did not hear that first cry. But he heard the second and the third—and then scream after scream as the Willow's tender body was slowly crushed under the settling mass. He ran toward it with the speed of the wind. The cries were weaker—dying away. He saw Barre as he came out from under the rock and ran into the chasm, and in the same instant he saw a part of the Willow's dress and her moaning feet. The rest of her was hidden under the death trap. Like a madman Pierrot began digging. When a few moments later he drew Nepeese out from under the boulder she was white and deathly still. Her eyes were closed. His hand could not feel that she was living, and a great moan of anguish rose out of his soul. But he knew how to fight for a life. He tore open her dress and found that she was not crushed as he had feared. Then he ran for water. When he returned, the Willow's eyes were open and she was gasping for breath.

"The blessed saints be praised!" sobbed Pierrot, falling on his knees at her side. "Nepeese, na Nepeese!"

CHAPTER IX.

Impelled by the wild alarm of the Willow's terrible cries and the sight of Pierrot dashing madly toward him from the dead body of Wakayoo, Barre did not stop running until it seemed as though his lungs could not draw another breath. When he stopped, he was well out of the canyon and headed for the beaver pond.

Exactly where lay Barre's fears it would be difficult to say—but surely it was not because of Nepeese. The Willow had chased him hard. She had lunged herself upon him. He had felt the clutch of her hands and the smother of her soft hair, and yet of her he was not afraid! If he stopped now and then in his flight and

looked back, it was to see if Nepeese was following. He would not have run hard from her—alone. Her eyes and voice and hands had set something stirring in him; he was filled with a greater yearning and a greater loneliness now—and that night he dreamed troubled dreams.

Barre was glad when the dawn came. He did not seek for food, but went down to the pond. There was little hope and anticipation in his manner now. He remembered that, as plainly as animal ways could talk, Umisk and his playmates had told him they wanted nothing to do with him. And yet the fact that they were there took away from his loneliness. It was more than loneliness. The wolf in him was submerged. The dog was master.

"The blessed saints be praised!" sobbed Pierrot, falling on his knees at her side.

In one of the larger canals Barre surprised a big beaver towing a four-foot cutting of birch as thick through as a man's leg—half a dozen breakfasts and dinners and suppers in that one cargo. The four or five inner barks of the birch are what might be called the bread and butter and potatoes of the beaver menu, while the more highly prized barks of the willow and young alder take the place of meat and pie.

Barre smelled curiously of the birch cutting after the old beaver had abandoned it in flight, and then went on. He did not try to hide himself now, and at least half a dozen beavers had a good look at him before he came to the point where the pond narrowed down to the width of the stream, almost half a mile from the dam. Then he wandered back. All that morning he hovered about the pond, showed himself openly.

In their big mud-and-stick strongholds the beavers held a council of war. They were distinctly puzzled.

It may be that the beavers discussed the matter fully among themselves. It is possible that Umisk and his playmates told their parents of their adventures, and of how Barre made no move to harm them when he could quite easily have caught them. It is also more than likely that the old beavers who had fled from Barre that morning gave an account of their adventures, again emphasizing the fact that the stranger, while frightening them, had shown no disposition to attack them. All this is quite possible, for if beavers can make a large part of a continent's history, and can perform engineering feats that nothing less than dynamite can destroy, it is only reasonable to suppose that they have some way of making one another understand.

However this may be, courageous old Beaver-tooth took it upon himself to end the suspense.

It was early in the afternoon that for the third or fourth time Barre walked out on the dam. This dam was fully two hundred feet in length, but at no point did the water run over it, the overflow finding its way through narrow sluices. A week or two ago Barre could have crossed to the opposite side of the pond on this dam, but now—at the far end—Beaver-tooth and his engineers were adding a new section of dam, and in order to accomplish their work more easily, they had

flooded fully fifty yards of the low ground on which they were working. The main dam held a fascination for Barre. It was strong with the smell of beaver. The top of it was high and dry, and there were dozens of smoothly worn little hollows in which the beavers had taken their sun-baths. In one of these hollows Barre stretched himself out, with his eyes on the pond. Not a ripple stirred its velvety smoothness. Not a sound broke the drowsy stillness of the afternoon. The beavers might have been dead or asleep, for all the stir they made. And yet they knew that Barre was on the dam. Where he lay, the sun fell in a warm flood, and it was so comfortable that after a time he had difficulty in keeping his eyes open to watch the pond. Then he fell asleep.

Just how Beaver-tooth sensed this fact is a mystery. Five minutes later he came up quietly, without a splash or a sound, within fifty yards of Barre. For a few moments he scarcely moved in the water. Then he swam very slowly parallel with the dam across the pond. At the other side he drew himself ashore, and for another minute sat as motionless as a stone, with his eyes on that part of the dam where Barre was lying.

A few yards away Barre was almost hidden in his hollow, only the top of his shiny black body appearing to Beaver-tooth's scrutiny. To get a better look, the old beaver spread his flat tail out beyond him and rose to a sitting posture on his hind-quarters, his two front paws held squirrel-like over his breast. In this pose he was fully three feet tall. He probably weighed forty pounds, and in some ways he resembled one of those fat, featured, silly-looking dogs that go largely to stomach. But his brain was working with amazing celerity. Suddenly he gave the hard mud of the dam a single slap with his tail—and Barre sat up. Instantly he saw Beaver-tooth, and stared. Beaver-tooth stared. For a full half-minute neither moved the thousandth part of an inch. Then Barre stood up and wagged his tail.

That was enough. Dropping to his fore-feet, Beaver-tooth waddled leisurely to the edge of the dam and dived over. He was neither cautious nor in very great haste now. He made a great commotion in the water and swam boldly back and forth under Barre. When he had done this several times, he cut straight up the pond to the largest of the three houses and disappeared. Five minutes after Beaver-tooth's exploit, word was passing quickly among the colony. The stranger—Barre—was not a lynx. He was not a fox. He was not a wolf. Moreover, he was very young—and harmless.

Nurses Use English At World Meeting

Chosen As Official Language at Congress in Helsingfors, Finland

Although nearly every country in the world was represented at the fifth congress of the International Council of Nurses, held in Helsingfors, Finland, in July, English was chosen as the official language. Miss Beatrice Ellis, superintendent of nurses at the Toronto Western Hospital, and the assistant superintendent, Miss Ida McAfee, who attended the congress, referred to the remarkable fluency of the majority of the delegates in English as well as other languages. China's representative was able to present her reports and suggestions in excellent English, but the charming Japanese official delegate had to use an interpreter.

Finnish nurses during the year preceding the congress gave up many of their leisure hours to the study of English in order that they might be properly equipped for an international convention. Miss Ellis praised highly the committee responsible for all the arrangement of the congress week, and declared that she was much impressed with the wonderful organization of the Finnish nurses.

Canada's delegates occupied an important place on the programme, and the exhibits of books, slides and equipment from the Dominion, in the opinion of Miss Ellis, were second to none. In matters of nurses' training schools, hospital administration and public health work also, Canada was well to the forefront. Miss Jean Browne, president of the Canadian Nurses' Association, who had the honor of welcoming France into the council, referred to the fact that nursing was first introduced into Canada by French women.

Five new countries were accepted into the council, and China was decided upon as the meeting place in 1929. Of the 1,049 delegates registered, 52 were from Canada.

Russian Refugees

Party From the Orient Will Settle in B.C. and Alberta

The steamship Empress of Asia docked at Vancouver recently from the Orient, bringing 112 Russians, followers of the late Czar, and refugees from the Bolsheviks, who fled to Japan and China. As in the case of previous arrivals, the Russians will settle on farms in Alberta and Eastern British Columbia.

The party includes physicians, scientists, soldiers, teachers, farmers and skilled mechanics.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Something To Consider

Good Service Is Right That Public Will Demand

The interest of the consuming public is the last thing which either side considers; but the day will surely come when it will have to be one of the first, for, after all, the public holds the whip hand if it cares to assert itself. It is all a question of service. The continual disturbances in the coal industry are having the effect of greatly changing preconceived ideas of fuel economy. Strikes and lockouts are weapons for killing the goose which lays the golden eggs. Sooner or later employers and employees will be brought to understand this.—Hamilton Spectator.

Worms sap up the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Potato Crop Less

The U. S. department of agriculture estimates the combined potato crop of Canada and the United States at 125,000,000 bushels below that of last year. On the other hand potato production in Europe is estimated at 18,000,000 bushels more than that of 1924, and of Tunis at 24,000,000 bushels more than for 1924.

Josephine (reading conclusion of long letter): "Then I will come home and marry the sweetest little girl on earth."

Juliet: "What a mean trick! After being engaged to you."

WRIGLEYS

AFTER
EVERY
MEAL

Probably one reason for the popularity of WRIGLEYS is that it lasts so long and returns such great dividends for so small an outlay. It keeps teeth clean, breath sweet, appetite keen, digestion good. Fresh and full-flavored always in its wax-wrapped package.

Spaniard Introduced Grape Fruit
Ponce de Leon, the Spaniard who discovered Florida while in search of the fountain of youth, is credited with having brought the first grape fruit to this country. For 300 years the fruit was not cultivated.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

A fountain pen is more apt to leak when it is almost empty because the heat of the hand causes the air inside to expand, tending to force out the ink.

Minard's Liniment for Distemper

Birmingham, England, is one of the greatest industrial cities because each week there is made there 14,000,000 pens, ten tons of pipe, 6,000 metal beds, 7,000 tons of rifles and other articles.

Saves \$24 A Year

Cooking experts figure that the SMP Enamelled Ware Roaster will save the average Canadian family fully \$24.00 a year in meat bills. The secret is, it roasts the meat with very little shrinkage. Also, it makes cheap cuts taste like the best ones.

You place the roast in the roaster, put on the cover; the roaster does the rest. No basting required. Every roast is perfectly cooked.

The cover fits close, so that cooking odors cannot escape. Grease can't spatter out, which means a sweet clean oven. Prices range from 85c. to \$1.50 each, depending on size and finish—and don't forget the saving of \$24.00 yearly.

ROASTERS

PAINS IN LEFT SIDE AND BACK

Other Troubles Women Often Have Relieved by Lydia E. Pinkham's Vegetable Compound

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back, and with weakness and other troubles women so often have. I was this way about six months. I saw the 'Vegetable Compound' advertised in the 'Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. ROSE, 580 Notre Dame Street, Lachine, Quebec.

Doctor Said an Operation

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's 'Vegetable Compound' in the papers and a friend recommended me to take it. After taking three bottles I became much better and now have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. ADAMS, Box 64, Provost, Alberta. C

WORLD HAPPENINGS BRIEFLY TOLD

Dr. J. S. Halstead, oldest Free Mason in the United States, and possibly in the world, died recently at the age of 107.

Officials of a safety association have computed the annual "traffic loss" of the United States. It amounts to two billion dollars annually, or \$20 for every citizen.

The importation of Welsh semi-anthracite coal to supplement supplies of Pennsylvania anthracite during the present strike is being considered in New York.

Rt. Hon. Sir J. Jordan, former British minister in Peking and member of the League of Nations advisory committee, died suddenly at a meeting of the China Association in London.

Robert A. Lear, a West Virginia attorney, having made a bet during the last presidential campaign that Davis would beat Coolidge, has paid up by walking 410 miles barefoot.

A stamp bearing the likeness of President Wilson will be issued by the United States post office department by the first of December, if the plans of the friends and admirers of the war president succeed.

Manufacture of liquor containing 60 per cent. of alcohol and vodka of 40 per cent. will be permitted in Soviet Russia from October 1, under a decision reached by the central executive committee.

It is announced that the French Government has accepted the invitation of the Toronto Horse Show officials to be represented at the tournaments in the Ontario city next November.

The United States post office department plans to open eight new air mail routes this fall. Bids for the contracts for the new routes, which are in the south and west, have been opened.

The London Evening News quotes Congressman Fred Britten, of Illinois, on his way home after a trip to Russia, as saying: "I talked to Tchitcherlin and others, and concluded that they are a lot of murderers and thieves."

Pending realization of the League of Nations' hopes of general limitation of armaments, efforts will be made immediately for a gradual reduction of Holland's military forces while maintaining a defence compatible with the present international situation.

Many Leaves On Elm Tree

A certain botanist who has given much thought to the matter estimates that a good-sized foliage tree such as an elm, may produce a crop of no fewer than seven million leaves. The combined surface of all these leaves amounts to no less than 200,000 square feet.

TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Example To World

Election of Senator Dandurand of Canada to Presidency of League of Nations

Canada constituted an "example to the world of how to handle successfully the problem of the treatment of minority populations," declared Paul Painleve, premier of France, as the retiring chairman of the League of Nations Assembly, speaking in the assembly at Geneva on the election of Hon. Senator Raoul Dandurand of Canada to the presidency. The election was the feature of the session.

M. Painleve paid a tribute to Senator Dandurand as a statesman of high capacity and deep knowledge of juridical questions, and referred to Canada as a common ground of British and French views. In Canada, M. Painleve said, French civilization lives peacefully and in brotherly union with British.

He said that the choice of the assembly was particularly felicitous, as Canada was on common ground with the British and French civilization.

May Prove Successful

Claimed Discovery of Cure For One Form of Cancer

An article in the Lancet, leading British medical journal, by Dr. Thomas L. Munden, of the Lister Institute of Preventive Medicine, reveals the alleged discovery of a cure of the form of cancer known as sarcoma.

The efficacy of the cure is qualified only in that it has thus far only been applied to rats, in which the disease has been transplanted.

Of fifty rats treated, according to Dr. Munden, 82 per cent. have been cured.

A Simple Design For Girls

Girls' dresses adhere to simple lines and often are quite restrained in their ornamentation. The belts are the main trimming feature of the dress pictured here, which is cut in one piece, with a little extra fullness over the hips at the low waist-line. The sleeves may be made short or long and gathered into a band at the wrist. The dress has an opening at the centre front, and the neck is finished with a narrow collar. Sizes 6, 8, 10, 12 and 14 years. Size 8 years requires 2 1/2 yards of 32-inch, or 2 3/4 yards of 36-inch material. Price 20 cents.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her tastes fulfilled in our patterns. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

Wembley Exposition

Faces Big Deficit

Estimate Puts Loss At About Three Million Pounds

The British empire exposition at Wembley will prove as great a financial failure this year as in 1924, it is feared. One estimate puts the loss to the big British firms guaranteeing the exhibition at £3,000,000.

This pessimistic forecast is based on the rate of attendance to date. It is estimated that unless the attendance totals rise only 8,500,000 persons will have gone to Wembley this year by the time the great fair closes its gates at the end of October. Last year 17,000,000 paid admission, which was half the number needed to make Wembley a financial success.

"The biggest business proposition ever put up by this country is also the biggest failure," says one London newspaper today, attributing the failure to the fact that "Wembley all along has lacked a showman—an inspired autocrat who with the marvelous material at hand could have made it the most successful and stimulating exhibition the world has known. Today Wembley is a tragedy of inept management."

Manitoba Wheat Pool Do Well

Handled Over Eight Million Bushels At Slight Cost

The Manitoba Wheat Pool alone handled nearly eight and a half million bushels of wheat last year at an administrative cost of slightly over three-fifths of a cent per bushel. Interest, insurance and elevator charges absorbed a little less than half a cent, the total cost thus being a trifle over a cent a bushel.

At the annual meeting of the pool held in Winnipeg, three prizes of \$75 each were voted to be given next year for the best essays on co-operation—competition to be limited to teachers and college students in rural high schools in the province.

A resolution was unanimously passed, to become effective at the next meeting of the pool, declaring that no member of the legislature or of parliament, or director of the United Farmers of Manitoba or the Farmers' Union of Canada shall be eligible to serve as director of the wheat pool.

Real News

Finding of a Rust-Resisting Variety of Wheat

Great events often are simply chronicled. From Aberdeen comes the brief announcement that the claim of R. S. McFadden, South Dakota wheat grower, to have developed by cross-breeding a variety of wheat that resists all efforts to infect it with rust, has been tested by department of agriculture scientists and found to be true.

Finding of a rust-resisting variety of wheat means literally billions of dollars to the agriculture of the world just as discovery of the durum drought-resisting wheat meant its billions of dollars. Such triumphs are of far more importance and deserving of more public attention than news of the declarations of wars or the signing of peace treaties.—Fort Worth Star Telegram.

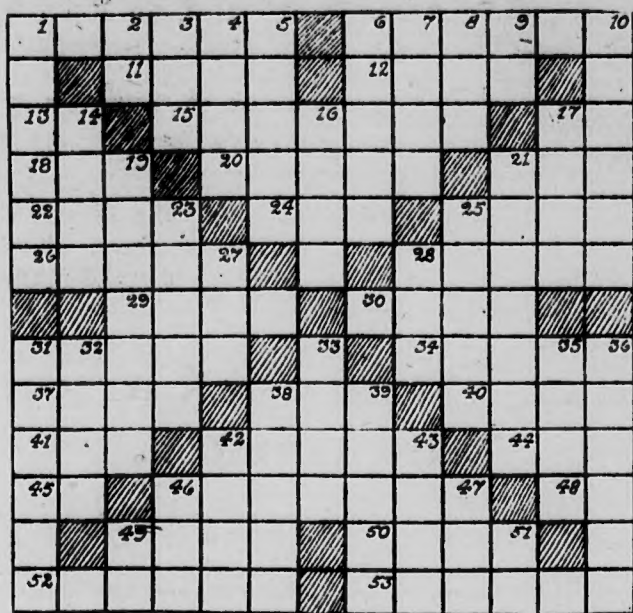

Broadcast Carnival Sounds of Fair

Broadcasting the carnival sounds of a big state fair will be attempted for the first time. Raucous cries of the hot dog vendors, the tooting of merry-go-rounds, the squealing of pigs, crowing of cocks, mooing of cows, the patter of racing hoofs on the track, the roar of speeding automobiles and the blaa of the hurdy-gurdy shows will be put into the microphone of a St. Paul station from the Minnesota state fair grounds.

When Locusts Stop Flying

A flight of locusts will rise to a great height and cover forty or fifty miles in a day. But once the locust swarm comes to the ground, there it swarms, devouring every green thing and never again using its wings.

OUR CROSSWORD PUZZLE

Horizontal

- 1—Colored crayon.
- 6—Talks.
- 11—Greasy.
- 12—Injured.
- 13—Preposition.
- 15—Separating.
- 17—Physician (abbr.).
- 18—Male child.
- 20—Lowest tides.
- 21—Social function.
- 32—Smell.
- 33—Nickname for a relative.
- 35—Make a noise like a donkey.
- 26—At no time.
- 28—Wounds in a coarse manner.
- 29—Sufficient (poetic).
- 30—Low male voice.
- 31—Overgrown with decaying organic matter.
- 34—Hag.
- 37—Higher branches of learning.

- 38—Small bed.
- 40—Wither.
- 41—Settle with.
- 42—Marks or stains.

SUNDAY SCHOOL LESSON

SEPTEMBER 27

REVIEW — FROM ANTIOCH OF SYRIA TO BEREÆA

Golden Text: Whom not having seen ye love; on whom, though now ye see him not, yet believing, ye rejoice greatly with joy unspeakable and full of glory. I. Peter 1:8.

Devotional Reading: I. Peter 4:12-19.

The first foreign missionaries.—As a little group of Christians were praying in Antioch of Syria, God's will was made known to them. They realized that he had called Paul and Barnabas for the special work of preaching the gospel to peoples in other lands. The church at Antioch had been blessed in having the gospel brought to them, and they were glad to share this blessing with others, just as they had been glad to share their food with the poor in Jerusalem during the famine.

After fasting and praying and laying on of hands, the little Christian community sent these two foreign missionaries on their way. Thus the great movement for the evangelization of the world began. Paul and Barnabas set sail from the port of Seleucia for the island of Cyprus. They landed at Salamis, and after preaching there crossed the island to Paphos.

Paphos was the home of the proconsul, Sergius Paulus. He desired to hear the word of God, but Elymas, a sorcerer, endeavored to dissuade him from believing. Paul vigorously accused Elymas of being the enemy of all righteousness; the hand of the Lord was upon him, Paul further declared, and he should be blind for a season. The eyes of Elymas were at once darkened, and he asked to be led by the hand. The astonished proconsul believed the teaching of the Lord.

Baldwin and His Pipe

Breaks Tension at Critical Period in Negotiations With Miners

The pipe of peace was once more in evidence at a critical period of the recent negotiations between coal miners, owners and the government. When the two sides reached a point where a deadlock seemed inevitable, and the atmosphere was strained and formal, Premier Stanley Baldwin fumbled in his pocket and produced his pipe. This he began slowly to fill, remarking: "Let's smoke, shall we?"

The suggestion was adopted by both miners and owners, and the formality of the strained atmosphere gradually disappeared. Within an hour the basis of a provisional agreement had been reached.

If wives were as nice to their husbands as female clerks are to their male customers, but few matrimonial failures would be recorded.

Refuse To Comply With Request

Radio Negotiations With French Government Prove Unsuccessful

Negotiations which the British Government is conducting with the French Government on behalf of Canadian radio operators with regard to cessation of the use of 450 and 300 metres wave by their ships and stations off the east coast of Canada have been unsuccessful, the French Government being unable to see its way clear to comply with the British Government's request.

The German Government, it was learned, has agreed to comply with the request of Canadian radio operators, and has issued instructions accordingly to ships flying the German flag.

Five gallons of gasoline has an explosive power equal to 415 pounds of dynamite.

Have You Pimples Or A Clear Smooth Skin?

10.30 a.m.—Morning worship.

11.30 a.m.—Bible School.

7.30 p.m.—Evening Worship.

8.30 p.m.—Senior League of Christian Endeavour

Thursday

7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.

8.00 p.m.—Praise and Prayer Service.

H. E. Roppel, pastor

After the services last Sunday evening about thirty young people representing the League resorted to the Ev. parsonage for a brief farewell meeting in honor of Mr. Dewey Rood, who has been officially moved from his bank position here to an advanced one in the Royal bank at Carstairs, Alta. Being of a literary

frame of mind he was presented with a book of poems by Burns as a token of the high esteem in which Mr. Rood was held as a member and officer in the young Peoples' League here.

Mr. Geo. Miller, Mildmay, Ont was a visitor over Sunday at the home of Mr. and Mrs. H. Reiber. Mr. Miller is a brother of the well known A. W. Miller, clerk in J. V. Bercht's store for many years, now pastor of the Ev. church at Pennant, Sask.

The infant daughter born to Mr. and Mrs. Geo. Dippel on Sunday, last, died on Tuesday night, in Didsbury hospital from the effects of Jaundice. The heart felt sympathy of their many friends and relatives is extended to Mr. and Mrs. Dippel.

Remember the Ev. Rally Day Services both morning and evening in all the departmental organizations on Sunday, October 4th. Will you help to make it a "Every Member Present" day? A

The Olds School of Agriculture offers a scholarship of \$125 to the girl student attaining highest standing at the short course to be held at the O.S.A.

The short course for the candidates is to be held between the dates of Tuesday, October 6 and 9. Each institute and U.F.W.A. in central Alberta is given the opportunity to send one representative to this course. The O.A.C. is asking that each organization select their own representative, the only conditions attached are that the girls shall be 16 years of age or over, be resident on a farm and have not had more than one year of high school education. It is also asked that each organization sending a representative pay the transportation of their candidate to and from Olds and meet the small expense incurred for living expenses while she attends the course.

The short course will commence at 9 a.m. Tuesday morning, October 6 and will continue for four days, the latter part of the fourth day being given over to examinations. The program of work which the students will follow includes the following:

Cooking; sewing machine instruction and preliminary work in making a kimono, apron or dress; canning; removal of stains and cleaning metals; mending and darning; salads and salad dressing; home nursing.

To the student attaining the highest standing will be awarded the scholarship.

The old ancient firm of Day and Martin, makers of shoe polish or blacking, has just passed away in England. The stock-holders have agreed on a voluntary winding-up. How long this firm has existed it is impossible to state. Readers of the Pickwick papers will remember that Sam Weller was using Day and Martin's blacking on Mr. Jingle's boots when Mr. Pickwick first made his acquaintance at the White Hart in the Borough. Day and Martin got into difficulties years ago, and it was admitted openly that the falling behind in the race for public favor was almost entirely due to the failure to adequately advertise their goods.

The continued wet weather of the past week or two was rapidly approaching an alarming stage, and last week especially a feeling of despondency existed with regard to it. Around Didsbury, where it was expected to garner one of the best crops in the history of the district, practically no threshing as yet has been done. Reports from various parts indicate extensive damage due to sprouting, although apparently oats and barley have suffered the worst. Grades undoubtedly will be seriously affected, although to what extent it is impossible to say until threshing is over. With the finer weather prevailing since Saturday, however, the farmers have been busy turning over the stocks, and it is hoped with a few drying

cordial invitation to visitors and strangers.

Considering the bad roads, the funeral service of the late David Luft, son of Mr. and Mrs. P. Luft, held in the Ev. Church on Friday was well attended. While the service was conducted by the Ev. pastor, the sermon was preached by the Rev. Jos. Weinlick, pastor of the German Moravian church, Calgary, where the bereaved family are church members.

winds that the grain may partly recover. Threshing is not expected to commence until the end of the present week.

The A.O.B. Club of Carstairs will hold a Novelty Dance, in the Amusement Hall, Carstairs, on Friday, October 2nd. Good music, good time, and "a floor your feet love to touch." 2c38

Ten Thousand Alberta Farmers

WITH ONE MILLION ACRES OF WHEAT

ARE NOW READY TO JOIN THE ALBERTA WHEAT POOL.

A commission of \$1.50 per contract will be paid on all bona fide contracts sent to Head Office.

BETWEEN SEPT. 28 and DEC. 31, 1925

The campaign is open to the public and a commission will be paid to all canvassers except members of the Board of Directors and employs of the Pool.

Delegates and Local Secretaries are eligible to canvass and to receive commission.

Conditions of Campaign

- (1) All contracts sent in must be complete as to signature of the grower, his post office address, land location, etc. If the grower's name is not clearly written, print it.
- (2) A canvasser's report properly filled in must accompany each parcel of contracts. This will show to whom the commission should be paid.
- (3) Where the membership fee of \$3.00 is paid in cash by the signer, the canvasser may remit \$1.50 to head office and retain the balance as his commission.
- (4) Where the grower signs the note for \$3.00, the canvasser should see that the signature is properly witnessed. A commission of \$1.50 per contract will be mailed to the canvasser's address as shown on the canvasser's report accompanying the contract.
- (5) Contract forms, canvasser's report forms, and self addressed envelopes, are being sent to all Wheat Pool delegates, Wheat Pool local secretaries, U.F.A. secretaries, and secretaries of Municipal Districts, or you can write Head Office for supplies.

INCREASE YOUR SELLING STRENGTH BY AN ADDITIONAL TEN MILLION BUSHELS IN THIS YEAR'S POOL.

**Board of Directors
Alberta Co-operative Wheat Producers Limited
CALGARY**

Creating an all-time record for the company, the Saskatchewan Co-operative Elevator company handled 1,200,000 bushels of wheat in one day last week. It was the first time in any year that more than 1,000,000 bushels had ever been handled in one day.

Progressive party candidates will contest 48 of the 54 seats in Manitoba, Saskatchewan and Alberta, according to estimates made by party official. Though only eight nominees are in the field at the present time, the majority of the nominating conventions will be held before Oct. 1 and the campaigning in the constituencies will be started. The strictly urban seats are being left to the two older parties and Labor, while every rural district will have a farmer candidate.

THE TEN COMMANDMENTS

The picture which broke all long run records is coming to Didsbury on October 7th. Playing the two-a-day in New York City, it broke the record of 50 weeks which had been held by the "Covered Wagon", remaining at capacity for 62 consecutive weeks.

GENERAL CHANGE

IN
TRAIN SERVICE

Effective Sunday, Sept. 27th, 1925
Times for Trains at Didsbury will be:

NORTHBOUND

No. 521—8.09 a.m., daily
No. 525—6.19 p.m., daily
No. 523—9.54 a.m. daily except Sunday.

SOUTHBOUND

No. 526—5.01 a.m., daily
No. 522—12.07 p.m., daily
No. 524—5.09 p.m. daily except Sunday.

TRANS-CANADA LIMITED has been withdrawn.

THE MOUNTAINEER, Trains Nos. 13 and 14, between Chicago and Vancouver, will be withdrawn; last through train passing Calgary Westbound September 22nd, and Eastbound September 25th.

For further particulars, apply to any Ticket Agent, or
J. E. PROCTOR,
District Passenger Agent, Calgary.

Perhaps you are using good tea. We think "Red Rose" extra good. Won't you try it?

RED ROSE TEA "is good tea"

The same good tea for 30 years.

What the West Means to the East

Western Canada's 1925 crop should have the effect of finally convincing Eastern manufacturers, wholesalers and financiers how largely their success and prosperity is bound up in the progress and prosperity of the agricultural producers of the West, and should open their eyes to the fact that Eastern approval and support of those essentially Western undertakings and policies to further develop and increase our farm production and wealth will result in still larger business and dividends for the East. Artisans and workmen generally throughout Eastern industrial centres should become seized of the same knowledge.

In a review of the business outlook in Canada, The Financial Post, Toronto, says of Ontario: "Wholesale houses feeling effect of much keener demand from Western Canada and look for excellent business this Fall and Winter in basic lines. Industry speeding up 100 per cent. and over in many cases. Decided falling off in unemployment." In Quebec, it is stated, "very little unemployment exists." In British Columbia "huge building projects are under way, including grain elevators" and "basic industrial conditions are improving gradually." In all provinces the agricultural position is reported better than for many years.

Thus both to the east and the west the effect of prairie production is felt and bringing about marked improvement in the industrial and economic life of the country. Concrete evidence of this betterment is found in the fact that whereas a couple of years ago the Massey-Harris factories were more or less idle, they are now working day and night with full staffs in an effort to fill orders, and the stock of the Company is quoted at a figure double what it was at the beginning of the year; Sawyer-Massey stock has more than doubled since February, while Cockshutt Plow has recorded a 30 per cent. advance.

Analysing operating results for the first five or six months of the year, a Wall Street financial journal recently hazarded the opinion that the C.P.R. would not earn its full ten per cent. dividend this year, but improving business throughout Canada resulted in the railway enjoying the best July since 1917. August maintained the improvement, and with the Western crop now moving and business generally speeding up as a result, both the C.P.R. and C.N.R. are expected to make a splendid showing for the year.

The head of a Western trust company announces as a result of improved conditions his company has disposed of more farm lands in the past five months than in the previous five years. The Hudson's Bay Co. sold more than double the acreage in the first six months of 1925 as compared with the same period last year. An official report of the United States Bureau of Immigration states that the number of farmers settling on the Canadian prairies from a large portion of the United States is fifty per cent. greater than for last year, and that the two railway companies and the Hudson's Bay Co. have sold more land in Western Canada than in any similar period for ten years.

The significance of these things should not be lost upon the people of Eastern Canada. There is hardly any limit to the wealth producing power of Western Canada, but those responsible for that production continue to labor under certain handicaps which ought to be removed, and can easily be removed if the people of the East will but take a large national view of the policies and undertakings involved, as, for example, an equitable readjustment of freight rates east and west, and the early completion of the Hudson Bay Railway. Anything that will add to the purchasing power of the West, and give a further impetus to its settlement and development, will mean a further large increase in industrial development and prosperity east of the Great Lakes.

No part of Canada stands to suffer quite so much or so quickly from depression in Western agriculture as the provinces of Ontario and Quebec. If the West remains handicapped, its development will suffer and the people here will not reap the full reward of their labor. But they will make a living and can hang on. But if the necessary business is not forthcoming to keep their wheels turning and their man-power employed, Eastern factories have no option but to shut down and throw their employees into the ranks of the unemployed. The latter must then emigrate to newer and more promising fields.

Development and prosperity in the West means the hunt of activity in Eastern industrial centres. The 1925 Western crop is demonstrating this to be true. The East should bestir itself in its own interests and support those policies and undertakings which will assist to make such a condition as nearly permanent as human agencies can make it.

A physician at the University of Minnesota declares that the length of time one can hold his breath is a good test of physical fitness.

Plans Flight From London To Cape Town

British Airman Made Flight To India Last Year

Alan Cobham, Great Britain's long distance airman, is going to attempt a London-Cape Town flight in November. His route will be Paris, Lyons, Pisa, Brindisi and Cairo, the course thereafter to be governed by local conditions.

Cobham hopes to reach Cape Town early in December and return to London the same month. Last year Cobham, who is thirty-three years old, completed a 17,000-mile flight to India, carrying as a passenger Sir Seton Branker, the air vice-marshal. He proposes to use the same type machine as the DM50 in his flight to Africa.

Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time and safety lies in having always handy on the shelf a reliable pain reliever like good old "Nerviline." For nearly half a century Nerviline has been a family standby, and most mothers have come to rely upon it in case of colds, sore throat, tight chest, sprains, cramps, nausea and sudden attacks of sickness at the stomach. For internal or external use, Nerviline is worth its weight in gold in every home, and costs but 25 cents at any dealers.

Montreal's Population

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 907,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A GRATEFUL LETTER

From a Lady Made Well by Dr. Williams' Pink Pills

"I wish from my heart I could persuade every person whose run down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says: "About a year ago I was a weak woman, suffering from a run down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sweep a room or walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills, and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping every few seconds gasping for breath as previously. Dr. Williams' Pink Pills will be my stand-by in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to anyone needing a tonic."

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anaemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

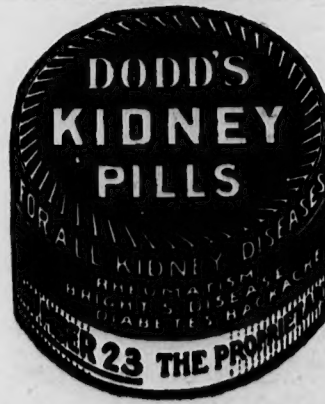

Holds Highest Record

A Worcestershire woman has lived eighty-five years in one house. Her record is beaten by John Hallam, of Hatton, England, who died in his ninety-fifth year in the house in which he was born. He had lived in it all his life.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Oldest Cigar Store

Lancaster, Pa., claims the oldest cigar store in America. It has been in the Demuth family since 1770. The store is a treasure house of relics. It contains the first bathtub in Lancaster County, more than a century old.

Odd House Needs Owner

Structure in Shape of Flatiron Built in Seattle

A house five feet nine inches wide at one end and 16 feet at the other was built on a lot 40 by 120 by 11 feet in Seattle this summer by A. B. Wark, contractor. An ordinance requiring the house to be in line with others on the two streets it faces was the reason the structure took the shape of a flatiron, Wark said.

The dwelling contains three fan-shaped rooms. In the rooms a disappearing breakfast nook, a receding bed and a vanishing ironing board were installed. The basement has a combination laundry and garage.

Wark said he was trying to find somebody the house would fit so that he could sell it.

Big Crowd At Tennyson's Home

The biggest gathering of Tennysonians ever held in England met at Aldworth recently to visit the poet's old home in the Surrey hills. This is built on a hill near Haslemere and is now occupied by the Galkwar of Baroda, at whose invitation the members of the Poetry Society journeyed to the poet's cottage.

May Become Apartment House

Italian Engineer Plans to Make Eiffel Tower Greatest Skyscraper

The Eiffel Tower, in Paris, which today supports what is claimed to be the largest and grandest electric advertising sign in the world, would undergo still another change into something perhaps even richer and stranger if the ideas of M. Carlo Castiglione, Italian engineer responsible for the installation of the present electrical apparatus, were adopted.

What he proposes is that the Eiffel Tower should be converted into a sixty-six story apartment house for the special benefit of tourists.

The new building would be constructed by erecting cement walls about the present structure, and could easily be fitted out with all modern appliances. The floor space could be let for offices as well as for apartments and rooms, and the result would be the greatest skyscraper in the world, promising for the municipality of Paris a tremendous source of revenue. These are the views of M. Castiglione, who has said that the plans for the building are in preparation and when completed will be submitted to the proper authorities.

Amundsen Will Use Dirigible

Norwegian Explorer Will Again Attempt Flight Over North Pole

Captain Raold Amundsen's next attempt to fly over the North Pole will be made in an Italian dirigible, it was confirmed by the commissariat of aeronautics. The dirigible, the N-1, which has been ceded to the Norwegian explorer expressly for the Polar flight, will be operated by an Italian crew. The conditions of the cession by the Italian Government have not been made public, but it is not believed the explorer purchased the airship outright, since Italy is to share in the honors of the flight by furnishing the crew.

It will fly the Norwegian flag.

While termed a dirigible, it is not of the zeppelin type, but is semi-rigid. It has a capacity of 19,000 cubic meters, is 106 meters long, and 26 wide (about 347 by 85 feet) and is equipped with three motors of 245 horsepower, capable of developing a speed of about 62 miles an hour with a cargo of eight tons.

It will Prevent Ulcerated Throat.

At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

May Revolutionize Industry

Scientist Claims Concentration of Electrical Energy in Small Object

A scientific discovery that may have a revolutionary effect on industry is claimed by A. F. Joffe of the Academy of Science.

Experimenting in his own laboratory, Joffe says he succeeded in obtaining a tremendous concentration of electrical energy in a very small object. The accumulator, which he constructed and charged with energy "sufficient to drive the most powerful motor car for ten days," is small enough to go into a waistcoat pocket.

Tribute To Genius

Hitherto honored only for his ability as a composer and artist, Walter Damrosch, conductor of New York Symphony Orchestra, has received the following note as proof of his genius: "Will you kindly call to tune my piano?"

Ask for Minard's and take no other

British Government

Aids Women Flyers

Big Grant For Club Which Has Six Women Members

Flying as a profession has been recognized by the British Government as being well within the capabilities of women and a club already has been formed to carry out the air ministry's scheme for a light aeroplane organization for London with members of the fair sex. In connection with the opening recently of the Stag Lane Airdrome at Edgware, near London, by the London Aero Club, of which six flying members are women, a move has been made with the object of training women pilots for possible enrollment in an air force for protecting the capital from enemy raiders in the event of war with nearby powers.

The air ministry has agreed to provide the club with £20,000 worth of equipment and a grant of £1,000 for upkeep, and has promised more money as it is needed. It also will give £10 for every certified woman pilot trained by the club.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Many Women Leaving England

According to official figures just made public, 10,600 females, wives or housekeepers, left the British Isles for British North America last year and 6,000 went to Australia. Over 10,000 males emigrated last year to British North America to engage in agricultural work.

The total number of emigrants from the British Isles in 1924 to other parts of the empire was 115,600.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Absolute Failure

One of His Majesty's inspectors of schools in a Scotland city had been testing the children of a very slummy district for admission to an institution for the mentally defective. Walking homewards through a narrow street he overheard this poignant comment on his day's doings: First lady on the doorstep: "What's wrang wi' ye, wumman? Ye're that glumphy the day." Second lady on adjacent doorstep: "Oor Jeanie was examined for an idiot, an' she didna pass!"

AGREE ON PLANS TO RETAIN NEW FREIGHT RATE

Edmonton.—If by any chance the board of railway commissioners, as a result of the application of the Montreal board of trade, to be heard September 29, agree to rescind the order equalizing the rate on westbound export grain and flour, with that eastbound, immediate application will be made to the Canadian privy council for the hearing of an appeal against this decision, in order that the farmers of the west may not, without every possible effort to prevent it, lose the benefit of the equalized rate on this season's crop.

This decision was reached at a conference between Attorney-General Brownlee, of Alberta, S. B. Woods, K.C., Alberta's counsel in the freight rates case, and Attorney-General Cross, of Saskatchewan, held at Mr. Woods' office.

The attorney-generals for the two provinces agreed upon a line of action for submission when the application of the Montreal board of trade is heard by the railway commissioners on September 29, and since Attorney-General Cross of Saskatchewan will be unable, owing to other engagements, to represent his province at the hearing, Mr. Woods' services have been retained by both provinces, to oppose the application on their behalf.

Deport Christians From Mosul Territory

Turks Send Entire Population of Baijo Over Frontier

London.—The Turks have deported from two to three hundred Christians from the territory in the northern part of Mosul region. It is learned from authoritative sources. They encircled the village of Baijo and the monastery of Zerowak, and sent the entire Christian population over the frontier. The Christians arrived absolutely destitute, having had nothing to eat for several hours and their plight was pitiful.

The Turks, it is stated, also intend to deport eight thousand Christians from the Goyo region, and the Christian population there is in a panic.

The British do not regard the Turks' action as a military gesture, but as an illustration of what would happen to Christians if the Turk was to get possession of Mosul.

Prohibition For Weekend

Warsaw.—The Polish Government has prohibited the sale of alcoholic beverages from 3 p.m. on Saturday until 10 a.m. Monday. An exception to the decree is beer with a maximum of two and one-half per cent. alcohol. Enforcement of this prohibition has led to a series of mass demonstrations in several of the larger cities of Poland.

Prince May Come West Next Year

Ottawa.—A special dispatch from Montreal to The Citizen says word has been received in Montreal that the Prince of Wales probably will re-visit Canada and the United States next summer, passing a few weeks on his ranch at High River, Alta., and then visiting some of the American friends he made last year.

Borah Is Prompt

Washington.—Coincident with the departure from Paris of the French debt mission to the United States, Chairman Borah of the senate foreign relations committee, at a conference with President Coolidge, opposed terms for France more liberal than those given Britain.

Kept Going On Water Diet

New York.—Living for five weeks on water only and not missing a day's work during that period, Edmund Wuensch, a mill weaver, has just concluded a fast for his health. Although he lost 44 pounds, Wuensch says he "feels much better."

Will Deport Chinese

New York.—One hundred and thirty-four Chinese are in the Tombs, awaiting deportation, because Chinatown could not settle its difficulties peacefully and resorted to the revolver and rifle of long warfare.

British Foreign Office Blamed

Westminster Gazette Says Inquiry Into Case of Egyptian Prince Should Be Made

London.—Prince Ahmed Selfeldine, of Egypt, who recently escaped from an insane asylum at Hastings, now is resting in the home of a relative, on the Sea of Marmora, near Constantinople. This information is contained in messages received from the Prince's attendants by his friends in England. The excitement of the journey across the channel to France and thence to Trieste, where he took a boat for Constantinople, greatly fatigued the prince, who will rest a few days before being examined by leading Turkish alienists.

The Westminster Gazette declares that an inquiry is needed into the part played by the British Government in holding the prince in an asylum in England for almost a quarter of a century, and alleges that friends who attempted to effect the release of Prince Ahmed during the last twenty years met with rebuffs from the British Government and the lunacy commission, which refused to allow the prince to be examined by two independent specialists.

Certain eastern bankers, says the newspaper, have agreed to honor Prince Ahmed's checks, and if these are not met with funds now controlled by trustees appointed by the Turkish Government, the matter will be presented to the League of Nations.

Canada Will Co-operate

Dominion Is In Full Sympathy With League of Nations

Geneva.—Senator Hewitt Bostock, of Canada, addressing the League of Nations assembly, explained the position of Canada in regard to the Geneva protocol on peace and disarmament.

He said Canada was unable to ratify the protocol, for although she favored the principle of arbitration and disarmament, her peculiar position made it impossible for the Dominion to accept the protocol.

Senator Bostock quoted a statement made by Premier King early this year on the subject, concluding that Canada had full sympathy with the league and would co-operate in all efforts of the league tending to promote the welfare of mankind. This statement aroused applause.

Discuss Anglo-American Relations

Judge Says World International Court Of Justice Needed

Vancouver.—An address on the subject of "Anglo-American relations," by Mr. Justice W. A. Macdonald, of Vancouver, was the feature of the banquet which marked the close of the annual convention of the Pacific Northwest Kiwanis district here.

Appealing to reasoning powers rather than to sentiment, he made out a strong case for the establishment of a world international court of justice amicably to settle disputes between nations, and declared it was essential that the United States be a member.

Agreed On Debt Payments

Sofia, Bulgaria.—A useful step in the direction of the Balkan peace is apparent in the agreement between Bulgaria and Romania regarding Bulgarian debt to the latter country. By the terms of the agreement Bulgaria will pay Roumania \$1,500,000 for Roumanian property seized during the world war and land belonging to Roumanian subjects expropriated by Bulgaria. The payment will be spread over four years.

Canada's Trade Increases

Ottawa.—Canadian trade increased during August nearly \$60,000,000, as compared with August, 1924. A summary issued by the department of customs shows that the grand total of exports and imports, including foreign merchandise exported, was \$194,388,288 last month, and in August, 1924, \$136,791,203.

Federal Tariff Commission

Montreal.—Joseph Daoust, local boot and shoe manufacturer, announced that he had agreed to represent the province of Quebec on the federal tariff commission about to be established by the King Government. The commission will sit at Ottawa, but just when Mr. Daoust could not say.

SAYS WHEAT POOL PROVES TO BE A BIG SUCCESS

Winnipeg.—The more hopeful outlook of agricultural conditions in Western Canada today was largely attributable to the "success of the wheat pool," by R. A. Hoey, former M.P. for Springfield, in addressing the Winnipeg Rotary Club here.

"The experiment so far has been an outstanding success," he declared.

Last year the pool had marketed 81,000,000 bushels of the total production of 245,000,000. The membership in the three prairie provinces was approximately 110,000, and total acreage involved over 17,000,000 acres.

Mr. Hoey is joining the publicity staff of the Manitoba pool, and is not seeking renomination for parliament.

British Dole System Restricts Emigration

Spirit of Adventure Being Killed Says Daily Mail

London.—The Daily Mail draws attention to the decrease in British migration which, it declares, is being strangled by doles and pensions. The paper states that the greatest demand for emigration today is coming, not from the hundreds of thousands of young lads and young men who are content to be workless while drawing the dole, but from the older men with families who are not yet demoralized. In spite of the increasing unemployment in Britain, the total number of emigrants to the dominions this year is less than last year. For the months of April, May and June last the returns show that 11,649 persons emigrated to the dominions against 12,449 for the same period last year.

Airmen Watching Turks

Troops On Frontier Waiting Decision In Mosul Dispute

London.—Forty thousand Turkish troops, according to an observer just arrived from Iraq, are waiting behind the provisional Mosul frontier ready to advance if the League of Nations Council gives an adverse decision in its forthcoming settlement of the Mosul boundary dispute.

This information declared that British airmen are keeping a sharp watch on the Turkish forces.

Arctic Coming Back

Ottawa.—The Canadian expedition to the Arctic regions this year has been unable to reach its objective—Bachof Peninsula—and under command of Captain Bernier, the steamship Arctic is now returning. It is expected in Quebec about October 1.

Manitoba Progressives Active

Will Put Candidate in Every Rural Riding

Winnipeg.—Progressive party candidates will be run in every rural riding in Manitoba, according to an official statement made following a meeting of the provincial executive of the party here.

In most of the constituencies, standard bearers have been lined up, and the official statement from the executive stated that Manitoba Progressives who have served in the house during the last term are all prepared to enter the field again, with the exception of Hon. T. A. Crerar and R. A. Hoey, retiring members for Marquette and Springfield respectively.

Robert Forke, Progressive leader, will make a tour of the province, speaking, where possible, at nominating conventions. Hon. T. A. Crerar will speak at Shoal Lake in connection with the nominating convention there September 23.

Refused Admission To U. S.

Communist Member of British House of Commons Is Not Wanted

Washington.—Shapurji Saklatvala, Communist member of the British House of Commons, has been refused admission to the United States to attend the Inter-Parliamentary Union here next month as a British delegate. Secretary Kellogg announced that instructions had been cable to London to revoke the passport visa already granted Saklatvala. He explained that this action was taken under the immigration law because of inflammatory and revolutionary speeches made by Saklatvala in parliament and elsewhere, which have come to the attention of the state department only in the last few days.

"I do not believe," said Secretary Kellogg, "we should admit foreigners to this country to preach anarchy or a revolutionary overthrow of government."

Coarse Grain Pool

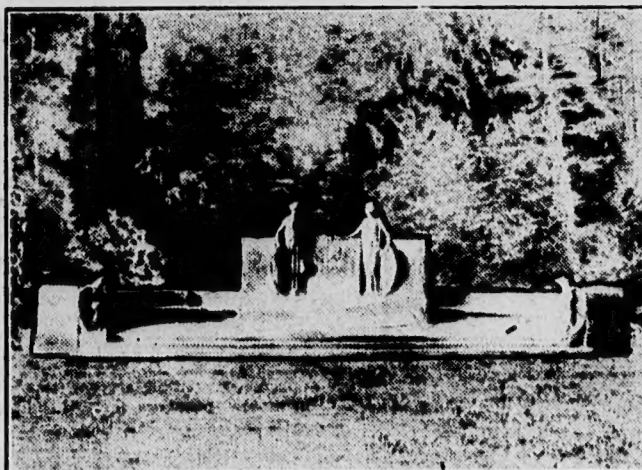

Saskatchewan to Operate Pool This Season

Regina.—Decision to operate the Saskatchewan coarse grains pools was reached at the meeting of the directors of the Saskatchewan wheat pool in the headquarters here.

The new pools cover oats, barley, flax and rye, and the initial payment on these grains will be: Oats, 2 C.W., 54 cents; Barley, 3 C.W., 50 cents; Rye, 2 C.W., 70 cents; Flax, 1 N.W., \$1.50.

In addition to the 31,546 contracts now in the coarse grains pools, there are 499 coarse grains contracts "in abeyance" awaiting tracing or checking with their respective wheat contracts.

The Harding Memorial Unveiled at Vancouver

Vancouver.—Bringing a message of goodwill, Joan H. Moss, of Milwaukee, president of the Kiwanis International, dedicated the Harding Memorial in Stanley Park in the presence of thousands of Vancouver citizens and large delegations from the United States. A feature of the address of Senator Frank B. Willis, of Ohio, representing the United States Government, was the forecast that the United States senate would ratify the entrance of the United States into the world court.

Reciprocal greetings were voiced by Hon. Dr. J. H. King, Dominion minister of public works, and telegraphed messages expressing similar sentiments were read from President Coolidge, the premiers of Alberta, Manitoba, Ontario and British Columbia and leading citizens of Canada and the United States.

"Behold the Harding Memorial, a symbol of international goodwill, a monument to the century-long peace between Canada and the United States; a pledge to the safety and surety of a loyal, lasting friendship between our respective peoples," proclaimed Mr. Moss as he unveiled the memorial.

In opening his address he referred to the fact that President Harding, twenty-ninth president of the United States, was the first to step on Canadian soil while in office.

ALL PREVIOUS GRAIN LOADING RECORDS BROKEN

Winnipeg.—All Canadian grain records were broken on the western lines of the Canadian Pacific Railway during the first 15 days of this month. The amount of grain marketed and loaded during this period has already exceeded the unprecedented figures of the famous crop of 1915. And the previous grain record of the road, which was made in 1923, has now been exceeded by 9,256,630 bushels.

During the last 11 working days, 23,424,463 bushels of wheat, and 5,602,167 bushels of other grain have been marketed and loaded on western lines of the Canadian Pacific, making a total of 29,256,630 bushels.

No similar figures in the history of railroading have produced such colossal figures as these.

In the same period of this month, 12,488 cars of wheat, and 2,775 cars of other grains have been loaded making a total of 15,263 cars and 21,424,607 bushels of grain.

This grain has been loaded in eleven working days, at the rate of 1,387 cars per day, or slightly more than one car loaded per minute.

The nearest previous record for grain marketing was made in 1923, when the Canadian Pacific marketed twenty million bushels with 9,758 cars employed.

A Remarkable Expedition

Major Burwash Attempting One-Man Trip Along the Northwest Passage

Ottawa.—When Baron Byng's northward drive to the Arctic Ocean ended on August 1 at Aklavik, the northern outpost of civilization, another remarkable expedition began, and, unless misfortune intervenes, it will be terminated about 12 months from now. Major J. T. Burwash, F.R.G.S., who accompanied his excellency the governor-general to the Arctic coast, almost immediately afterwards commenced the first one-man trip along the so-called Northwest Passage from west to east.

From what is known by officials of the department of the interior here, Major Burwash is now at Coronation Gulf, about one quarter of the distance around the north and the east coast of the Dominion. The trip from Aklavik to Coronation Gulf was done by boat. From the gulf for the remainder of the long, bleak journey, Major Burwash will travel by foot. Those who have travelled with him in the northland entertain not the slightest doubt that he will weather the long tramp.

Millionaire Sportsmen Are Fined

Windermere, B.C.—For violating the provincial game regulations, Cornelious V. Whitney, son of Harry Payne Whitney, of New York, and Harry P. Davidson, of Locust Valley, Long Island, both millionaires, were recently fined \$100 and costs with an option of thirty days in jail before a magistrate here.

Premier Bruce Flays Communists

Melbourne, Australia.—A vigorous attack was made against Communists by Premier Bruce in an address during which he declared they had gained control in recent years of trades unionism and were using it to aid in social revolution and the establishment of a dictatorship by them over the whole nation.

Premier King Coming

St. Peter's, N.S.—Speaking here, Premier Mackenzie King intimated that he would speak in Manitoba, Saskatchewan and Alberta following his present tour of the Maritime Provinces. He did not say whether the western tour would be extended to British Columbia.

Aircraft Probe To Be Public

Washington.—A policy of open hearings in the impending aircraft investigation is favored by President Coolidge, who sees no reason why the work of his special board should not be conducted in public.

Test Speeder Plane

Mitchellfield, L.I.—An aeroplane which can attain a speed of 300 miles an hour is being tested here, it is said. The world's record is 278 miles an hour.

AROUND THE TOWN

Mrs. J. Ruby spent last week-end visiting friends in Calgary.

Von Schmidt of Eagle Hill is in Hospital suffering from a badly lacerated leg, sustained recently, in a binder accident.

A. G. Studer reports the sale at his store on Thursday, Friday and Saturday of last week to have been most successful.

Mrs. W. Leadbetter has been spending a few days in Calgary visiting her son previous to his leaving for San Francisco.

Regular English services will be held at the Lutheran church at Westcott Sunday evening at 8 p.m. A cordial invitation is herewith extended.

Rosebud Flour Mills have undergone complete renovation recently. It has put in two man lifts, new dust collector and is now fully up-to-date.

H. D. Brown of Vermillion has taken a position with the Rosebud Flour Mills as assistant miller. Mr. Brown intends moving his family here in the near future.

The ideal weather on Sunday (and possibly feeling the reaction following our wet spell) brought out the golfers in crowds, the links all day being thronged. The localites were joined by a big contingent from Carstairs.

Since the announcement made of the new model Ford, considerable speculation has arisen as to its appearance, style, etc. and there are many no doubt that would like to have the opportunity of inspecting one. It will be of interest therefore to state that Roger Barrett expects one of the new models to arrive the end of the week when the residents of town and district will be given every opportunity of making a close inspection.

A crab apple tree growing in the garden belonging to Mr. and Mrs. J. Ruby attracted considerable attention earlier in the season on account of its profusion of blossom. The other day M. Ruby brought in a small glass of jelly which his wife had produced from the fruit of the tree. It was a fine sample and tasted as good as it looked, the thought occurring meanwhile what a fine thing it would be for the ordinary household to grow fruit of a similar kind.

In common with other points in Alberta, Didsbury suffered its first frost Sunday morning when the mercury fell seven degrees below the freezing point. The potato vines apparently were affected the most, although the tubers were not hurt. Garden flowers seemed to have come through well, a walk around the town on Sunday failing to reveal hardly any damage among these. Old timers freely predict a spell of fine weather now, and as if to verify their belief each day since has been ideal Alberta weather.

Mrs. E. B. Hunsperger, accompanied by her son Lester, left on Wednesday last for her home in Corvallis Oregon. Mrs. Hunsperger has spent the past month here visiting her husband and relatives and friends in the district. Lester, who has been spending the summer vacation here will on his return enter the Oregon Agricultural college at Corvallis and study law. Mr. Hunsperger with a number of friends, accompanied his wife as far as Banff, where the whole party spent the day. Mrs. Hunsperger and Lester then leaving for Vancouver enroute to cattle.
